A polystyrene ball decorated with Sticky Base and sequins

Make your own Christmas baubles covered with shiny sequins which are attached onto a polystyrene using Sticky Base.

Attach Sticky Base onto your chosen area of the polystyrene ball which you want to cover with sequins. A tip: Apply Sticky Base as you go around the ball in order to avoid the Sticky Base drying too quickly.

Attach one sequin at the bottom of the polystyrene ball and make a circle around it with more sequins as shown in the photo. Continue attaching the sequins onto the ball in circles until the ball is covered completely.

Fit a metal hanger by pushing it into the top of the polystyrene ball.

Polystyrene Balls, 7 cm, White, 5 pc 543070

Sticky Base, 100 G, 1 Tub 78723

Hanging Ornaments, 13 mm, 25 pc 60360
