

## Scary Masks

These Papier-mâché masks are painted with a mixture of Pop Up Liner and A-color matt and then heated with a heat gun, so the colour puffs up.

01 Paint a papier-mâché face mask with a 50/50 mixture of pop up liner and A-color matt.

02 Make teeth from Silk Clay and attach directly onto the mask. The eyes can be made from Foam Clay. Place a bit of cardboard behind the eye sockets so the Foam Clay does not fall out when drying.

03 Staple black fabric onto the edge of the mask with a stapler. You may hang the ghost in a piece of string.
