Felt Skates for Hanging

Rustic Christmas decorations made from our very own felt series: Vivi Gade Design.

01
Draw the pattern from the stencil No. 28-205. Add half a centimetre for the seam on the boot and extra height on the skating part.

02
Sew the boots, insides together, using buttonhole stitches. Use normal backstitches when sewing on the skating parts. Remember to leave a hole for the stuffing.

03
Fill the stuffing into the boot and finish sewing. Decorate with flax twine and wood buttons.
