## Polar Bear Hanging Decorations

A paper polar bear with punched out snow flakes from gold metallic card with mother-of-pearl plastic beads strung on natural twine.

**01** Draw the template twice onto the paper. The second must be drawn as a mirror image of the first, so the right side of the paper is facing outward on both sides when glued together.

**02** Cut them out.

**07** Use the same procedure with the snow flakes but use Glue Dots for the assembly.

**03** Punch out two snow flakes in both sizes from gold metallic card.

**04** Cut a piece of natural twine to your desired length. Remember to include the loop at the top. Tie a knot in one end and thread on beads (you may use a beading needle).

**05** Attach one polar bear onto double-sided adhesive foil and cut out.

**06** Pull off the foil from the other side and attach the twine with beads in the middle of the bear. Attach the other mirror imaged polar bear on top.
