Bird Cages on a Canvas

Die-Cut Canvas Figures painted with Art Proff paint. A design is outlined with paint in a refill bottle with a fine tip. Sew together in pairs with polyester wadding between the two.

01 Paint the house in a light base colour.

02 Paint a darker colour on top. Let it dry for approx. 2 min.

03 Wipe off the excess paint – Rub with a cloth.

04 Print the design onto a piece of paper.

05 Paint the back of the paper with black Gallery Oil Pastel.

06 Transfer the design onto the canvas by placing the paper onto the canvas and then outlining the design with a pencil.

07 Draw on top of the pencil lines with paint in a refill bottle with a fine tip.

08 Paint the wood beads.

09 Thread the beads onto a string and put the string between the two die cut canvas figures with a piece of polyester wadding – to give it body. Sew the two canvas figures together.
