A Blackboard and a Coat Rack with Decoupage

White-stain the piece of wood with Plus Color craft paint and decorate it with napkin decoupage. The black square in the middle is painted with blackboard paint and the result is a lovely blackboard.

01
Use a wet foam stencil brush to apply the Plus Color craft paint onto the wood.

02
Mark the area where you want the blackboard and paint with blackboard paint.

03
Attach the outer thin layer of the napkin onto the board using matt decoupage lacquer.
