## Flower Baskets

Small baskets with flowers made from tissue paper punched out on the Big Shot machine and assembled with floral wire and a bead.

**01**  
 Double over several sheets of tissue paper and place them in the Big Shot machine and punch out all the parts of the flower.

**02**  
 Thread a bead onto a piece of floral wire and twist it to form a long stem.

**03**  
 Assemble the tissue paper flowers together on the stem.

**04**  
 Insert the flowers into a piece of oasis which has been attached into the basket with a glue gun. Finally attach the small lovely dragonfly.

Tissue Paper, A4 210x297 mm, 14 g, 300mixed sheets 20914
