

A Bracelet, a Ring and Earrings made from Foam Rubber

STEP BY STEP 01 02 03
Inspiration: 12992

01 For the bracelet: Cut foam rubber into 1x1cm squares and thread them onto a piece of elastic beading cord with Howlite beads inbetween.

02 For the ring: Cut a strip of foam rubber to fit the circumference of a finger.

French Ear Wires, L: 18 mm, Silver-plated, 100 pc 603021

03 Insert a head pin into each end of a small piece of foam rubber with a bead and small foam rubber squares inbetween. Finish by gluing on an end cap.

04 For the earrings: Cut a strip of foam rubber and attach this onto a ball head pin, making it wavy. Attach beads between each "wave".

Ball Head Pins, L: 60 mm, Silver-plated, 20 pc 602000

Loctite Power Flex Instant Glue, 3 G, 1 pc 39061

Round Nose Pliers, L: 11 cm, 1 pc 13016

Ball Head Pins, L: 60 mm, Silver-plated, 150 pc 602001

Sieve Rings, 17-20 mm, Silver-plated, 15 pc 61315

Sieve Rings, 17-20 mm, Silver-plated, 3 pc 613151

05 Finish the ball head pin by twisting to make a loop with a pair of round nose pliers. Attach the finished pendant onto a French earwire.

A Bracelet, a Ring and Earrings made from Foam Rubber

Cut a piece of foam rubber for a bracelet, a ring and earrings. The pieces are threaded onto a piece of elastic beading cord for the bracelet and a head pin for the ring and the earrings.
