## Fun Creepy Decorations

Cut out scary hanging decorations from card using templates and staple them together. Decorate with a white Gel pen and a black Medallion pen.

01 Draw the templates onto the card.

02 Cut out.

03 Fold the circles in the middle.

04 Put the circles on top of one another on the pumpkin and staple them securely in the crease.

05 Attach double-sided tape on the top circle and fold them together, so it hides the staples.

06 Glue the leaves onto the pumpkin and draw details with the Medallion pen.

07 Draw a face with the Medallion pen. Finally make a hanging decoration hanging on a thread.

### Good Ideas!

Draw details on black card with a white Gel Pen. This gives the same effect as with the black Medallion pen. Make the hanging decoration easier by using wiggle eyes instead of cutting or drawing.
