Dinosaurs painted with Primary Colours

Dinosaurs painted with Plus Color craft paint in primary colours. Included in this set of paint for mixing to make secondary colours are black & white for either darkening or lightening the colours.

Mix primary colours to make new colours (secondary colours) for this idea, using Plus Color craft paint in primary colours, black or white. The kit is put together according to the principle of additive mixing (red, green & blue) and subtractive mixing (blue, green, red, magenta, and

Mix a secondary colour (brown) from two primary colours (red & green). Paint the dinosaur and leave to dry.

Using the kit of primary colours, make dark green by mixing black paint into the green. Paint the dinosaur and leave to dry.

Mix a secondary colour (orange) from two primary colours (red & yellow) Paint the dinosaur and leave to dry.
