Stud Earrings with long Pendants

These metal stud earrings with head pins and chains are made longer with wire decorated with rocaille beads etc.

Cut a piece of beading wire to your desired length and attach a crimp bead. Thread the wire through the loop of a pendant and then through the crimp bead. Tighten and squeeze the crimp bead flat with pliers.

Finish with a crimp bead by threading the wire through the loop at the bottom of the chain of the stud earring and then through the crimp bead as described in step 1. Tighten and squeeze the crimp bead flat with pliers.

Thread rocaille seed beads onto the wire. (In this example we have used approx. 20 beads).
