

## Colourful Christmas figures from ice lolly sticks

Let the children make fun, colourful Christmas figures for the Christmas tree or for hanging in the window using ice lolly sticks – perhaps even their used ones – paint, a glue gun and lots of imagination. Check these out!

**Inspiration: 16212**

### How to do it:

Arrange the ice lolly sticks to make your chosen figure and glue them together with a glue gun.

### 2

Paint the figure with acrylic paint. You may paint a small wooden bead for the nose and ice lolly sticks for the antlers. Leave to dry.

### **3**

Attach the wooden bead for the head using a glue gun. Draw facial features with a thin black marker pen.

### **4**

Attach further decorative details, such as a nose, a hat, antlers, a halo and wings using a glue gun.

### **A tip**

Use side cutters to shorten the ice lolly sticks. Use a brush handle dipped in paint to make nice even dots.
