

Timeless Art

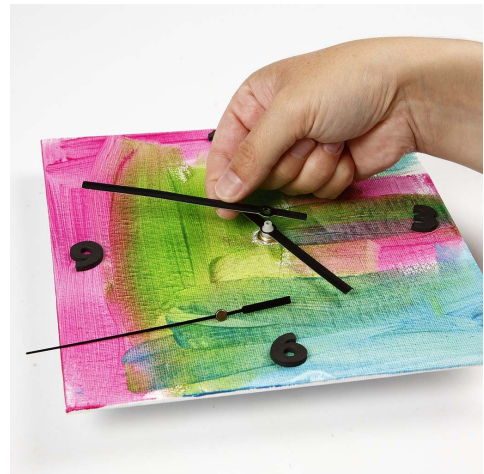

Canvas panels are used as a clock face for the small clock works. Painted with A-Color Glossy Acrylic paint, supplemented by foam rubber letters and numbers. A hole is drilled in the centre of the panel to fit the clock mechanism. □

Inspiration: 10944

1.

Paint the canvas panel with A-Color Glossy Acrylic paint. Glue the foam rubber numbers and letters onto the painting.

2.

Drill holes in the centre of the canvas panel and fit the clock mechanism onto the reverse side. Fit the hands onto the front of the canvas panel.
