

Transparent Flowers

The designs are drawn on hard foil sheets using Power Liner and then painted and decorated with A-color acrylic paint. When dry, decorate the flowers stems made from pipe cleaners.

Inspiration: 11253

1

Print the templates from our website if you wish. Lay the hard foil sheet on top of the drawing and draw using a black waterproof marker.

2

Paint the flower with A-color acrylic paint and let it dry. Use hole punch pliers to make a hole in the top and the bottom. Attach pipe cleaners as the stem.
