

A Babushka shaped holder for toothpicks

A lovely babushka for the breakfast table. Painted with Plus Color Craft Paint. The face is drawn with a black permanent marker.

Inspiration: 11527

1

Gather the toothpicks with a piece of tape before removing them from the holder. Paint the area of the face with Plus Color, and let it dry completely before you draw the actual face with a black permanent marker.

2

Paint the holder with Plus Color and a small brush. Paint outside the face and paint the shape of the dress.

3

Decorate the holder with gold dots; use the end of a brush handle or a refill plastic bottle with a fine tip. Let it dry and then put the toothpicks back in place.
