

Robots for the Fridge

Amusing robots made from Mini Stretched Canvas, decorated with Silk Clay and painted with Art Metal Silver Paint as well as a black Edding Marker. Magnets are glued onto the back.

Inspiration: 11686

1.

First draw with a pencil on the canvas and then model your robot with Silk Clay.

2.

Then paint the robot with Art Metal Silver Paint.

3.

Make arms and other parts from Floral Wire by twisting the wire around a pencil or similar object.

4.

Assemble the parts and glue on magnets with a glue gun.

5

Draw details with a black Edding Marker.
