

## Wood Icons with Glass Plates

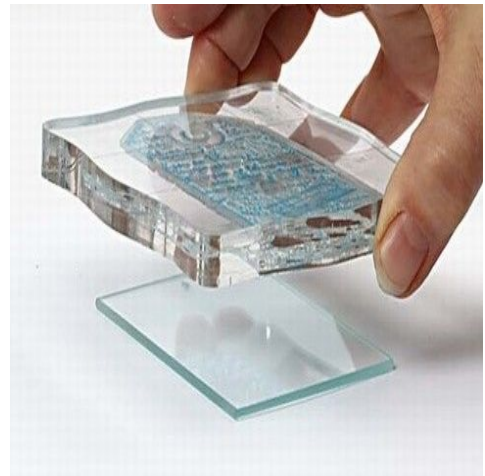

Glass Frost paint dabbed onto small glass plates which are decorated with Glass Ceramic, Glass Metallic and A-Color Glass prints using Silicone Stamps.

**Inspiration: 12188**

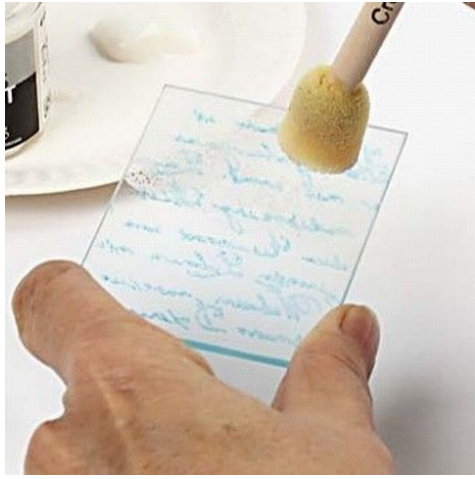

**1.**

Attach the silicone stamp to an acrylic block. Dab A-Color Glass paint onto the stamp using a foam brush.

**2.**

Gently press the stamp onto the glass plate. Let it dry. Rinse the stamp immediately.

**3.**

Dab Glass Frost paint on the opposite side (the reverse).

**4.**

Press small stamps onto the background design.

**5.**

Alternatively you may choose to press the glass plate onto the stamp on the acrylic block.

**6.**

Place the glass plates with the mosaic tiles in each corner onto a backing tray. Fix in the oven for 30 minutes at 160°C.

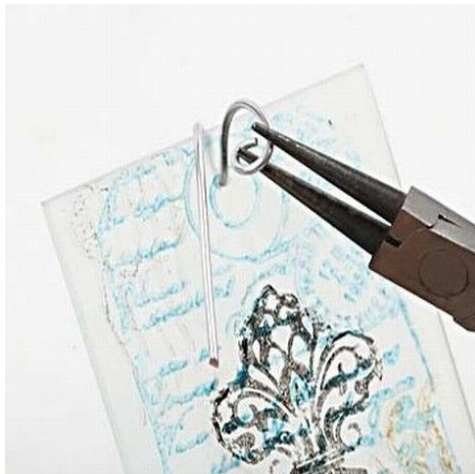

**7.**

The piece of wood supporting the glass plates, are whole pieces of wood for the large icon. For the small icons they are divided into three pieces, each measuring 10.5 x 10.5cm. Drill holes and use doubled over bonsai wire for hanging as shown. Twist the bonsai wire around a brush handle thus accommodating holes for nails.

**8.**

Twist two of the wires and cut off the other wire ends.

**9**

Create a decorative piece of bonsai wire on the glass plate.

**10**

Attach glass mosaic tiles in each corner of the glass plate using mounting glue. Then glue onto the piece of wood. Leave until the following day to harden.

## 11

Glue the metal pendant onto the piece of wood with a mosaic tile in between.
