

Mosaic in a Collage Frame

Mosaic fragments are glued onto a collage frame using Multi Glue gel. The cracks are filled with mosaic tile grout. The excess is removed with a wet foam stencil brush. You may choose to add lines with a glass and porcelain marker.

Inspiration: 12891

1.

Paint the collage frame with Plus Color craft paint.

2.

Apply Multi Glue gel onto a small area at a time. Place the mosaic fragments in the wet glue and let it dry.

3.

Fill all the cracks with mosaic tile grout using your fingers, a palette knife or a spatula.

4

Remove excess tile grout using a damp cloth or a foam stencil brush. You may add further decorations using an opaque glass and porcelain marker.
