

## Gnomes from Paverpol

This gnome is formed from linen dipped in Paverpol sculpting medium and then wrapped around a wire netting shape. This gnome is water repellent.

**Inspiration: 12867**

**1.**

Cut a piece of wire netting measuring 85cm. Bend and fold the netting into a large cone shape. Fold in the base. You may put a stone inside the wire netting shape.

**2.**

Form a large nose from Silk Clay and put it aside to dry.

**3.**

Make the beard as shown.

**4.**

Now cover the wire netting shape with Paverpol wrappers. Apply Paverpol with a brush as you go along on the area where you want to place the nose.

**5.**

Cut a piece of linen following the template.

**6.**

Moisten and thoroughly rub the linen with Paverpol.

**7.**

Wrap the linen around the wire netting shape, rub and press firmly.

**8.**

Attach the nose and the beard before the shape is completely dry. Attach these using Paverpol. Finally varnish the nose with Paverpol and let it dry.

**9.**

Make dots on the hat using Plus Color craft paint and a foam stencil brush.

**10.**

Make a sack from linen and use Paverpol sculpting medium to make it water and dirt repellent.
