

## A New Notebook with Color Bar Card Collage

The notebook, "New Notebook", is decorated with a colourful collage, inserted in the book's transparent plastic cover. We have used plain and patterned Color Bar card for the collage. The text and graphics are added using a black marker pen.

**Inspiration: 13136**

**1.**

Remove the white paper from the plastic cover, which is part of the original "New Notebook". Use the cover for measuring when cutting a piece of Color Bar card to go inside the transparent plastic cover. This will be the base of the collage which will be put inside the plastic cover.

**2.**

Tear or cut pieces of card and attach them randomly to the large piece of Color Bar card using a glue stick.

**3.**

Use a black marker pen for writing and drawing on the collage.

**4.**

Insert the finished collage inside the plastic cover.
