

## Drawings on wooden Products

The large and the small square wooden tealight candle holders are painted with Plus Color craft paint in different colours on all surfaces. Then they are decorated with a graphic design using black and white Uni Posca markers in two different sizes.

**Inspiration: 13135**

**1.**

Paint the untreated wood with Plus Color craft paint on all surfaces. Apply two coats of paint and let the candle holders dry for eight hours between applications.

**2.**

Draw and write on all surfaces on the candle holders using the Uni Posca markers. Use your imagination. All surfaces have been primed with paint in different colours. The Uni Posca series offers a wide range of colours and thicknesses. Here we have used white and black in 3mm and 5mm thicknesses.
