

A Glass Mosaic Design on a wooden Icon Plate

Glass mosaic fragments are attached with glue as a design on a square wooden icon plate. The edges are painted black.

Inspiration: 13129

1.

Use a pencil when drawing the outline of a design on the icon plate.

2.

Apply a small blob of Clear Multi glue gel onto the back of each mosaic fragment and place it securely within the outline of the design on the wooden icon plate.

3.

Paint the edges of the icon plate using black Plus Color Craft paint. Let it dry.

Another variant

Glass mosaic in a 3D frame.

Another variant

Glass mosaic in the small frame recess ("peephole") on a pencil holder.
