

## Decorations and Snowballs made from Honeycomb Paper

Draw the half circle of each decoration onto honeycomb paper using the template. Unfold the paper and assemble it into a snowball using double-sided adhesive tape.

**Inspiration: 13486**

**1.**

Print the template which is available as a separate PDF file for this idea. Cut out and copy onto a piece of honeycomb paper. NB: The lines in the paper should be horizontal. For different sized snowballs/paper baubles, use a pair of compasses for measuring.

**2.**

When making a snowball with a diameter larger than 7 cm, cut two.

**3.**

Carefully unfold the honeycomb paper by gently pulling from each side of the layers.

**4.**

Attach 3 mm wide double-sided adhesive tape in lines onto one half circle of honeycomb paper. The lines of tape must go beyond the half circle. NB: let the tape follow the lines of the honeycomb paper.

**5.**

Put the two half circles together next to each other to form a whole circle. Turn the circle over and attach double-sided adhesive tape following the same procedure.

**6.**

Remove the top protective layer of the double-sided adhesive tape.

## 7.

Fold the circle in the middle from both sides. The circle is now a sphere.
