

Flowers from Card using flexible Template

Each flower is cut from coloured card using a flexible template which can be used for five different types of flower. Assemble the flower heads with the stems etc. using a glue stick.

Inspiration: 13420

1.

Print the template which is available as a separate PDF file for this idea. Cut out all parts of the template and draw them onto card - each part on a different colour card - and cut out.

2.

Use a glue stick for attaching the flower parts to each other, making a flower with a stem.

3.

Use revolving punch pliers for making a hole and attach a piece of thread for hanging.
