

## A Manilla Tag with a punched-out Design as a Place Card

The place card is a manilla tag with a punched-out design along one side, made with a Fiskars Squeeze Punch. A contour porcelain marker is used for writing a name on the manilla tag and the place card is then attached to the glass using a mini peg.

**Inspiration: 13306**

**1.**

Use Fiskars Squeeze Punch for punching out the design along one side of the manilla tag, leaving enough room to write a name afterwards.

**2.**

Write a name using a fine marker pen. We have used a porcelain marker for outlining. Attach the finished place card to the glass using a mini peg.
