

A painted Bottle Holder with a Stamped Text

A wooden bottle holder, patinated with Plus Color craft paint, diluted with water, allowing the grain of the wood to show through the surface. A text and a graphical design are stamped on with undiluted paint in different colours from the same series.

Inspiration: 13632

1.

Mix Plus Color craft paint with water in the ratio 1:1 (half and half). Apply the diluted paint onto the bottle holder with a brush and leave to dry.

2.

Dab a foam stencil brush in undiluted Plus Color craft paint. Apply the paint onto the foam stamp using the foam stencil brush. Now stamp a text and a graphical design according to your own taste – and in different colours. For example, the word “lemonade”.

A TIP

The bottle holder may be used for three milk bottles, each measuring 550ml.
