

## A Keyring Fob made from Felt with coarse Stitches

This keyring fob is a felt shape sewn with coarse stitches directly onto the keyring. During the process it is filled with polyester stuffing and then decorated with glued-on pieces of felt and marker drawn graphics.

Inspiration: **13585**

**1.**

Draw a mirror-imaged shape onto the felt using a fabric marker. Cut it out.

**2.**

Arrange the narrow piece of the cut-out felt shape around the keyring. Use coarse stitches when sewing the shape together. Leave a small opening. Use mercerised cotton yarn and a darning needle with a pointed tip.

**3.**

Fill the figure with polyester stuffing through the small opening. Sew the opening together by hand.

**4.**

Use your imagination for cutting out felt decorations. Glue onto the felt shape using Clear Multi Glue Gel.

**5.**

Draw on the felt shape using fabric markers. You may draw facial features.
