

A black Shopping Bag with white Fabric Printing using a Template

This black shopping bag is decorated with a white print, using a screen stencil and Textile Solid fabric paint.

Inspiration: 13999

1.

Remove the protective paper from the back of the screen stencil and place the slightly adhesive screen stencil onto the shopping bag. Place a piece of baking paper inside the bag to prevent the print smudging. Saturate the paint roller with Textile Solid fabric paint and roll the paint roller over the screen stencil design.

2.

Carefully remove the screen stencil, revealing the print on the shopping bag. Leave to dry.

3.

Place a piece of baking paper on top of the design and fix with an iron.
