

## A Long Leather Necklace with a Heart Pendant

Inspiration: 1734

### Simple and elegant

Several leather cords combined with beautiful beads and jewellery parts result in beautiful and different looking jewellery with a modern look and feel.

### 2

Cut approx. 1 meter of leather cord and double over. Pull a silver ring over all the cords. Finish the leather cord ends with end caps, round jump rings and a lobster claw clasp. Twist and glue on a thin piece of leather cord across all the cord ends to make them thicker. This makes them stick better when gluing them into the end caps. Squeeze a large round jump ring into the hole of the heart. Attach a ring and now pull the heart onto the leather necklace.
