

A Wedding invitation & Table Decorations with Fingerprint Hearts

The invitation, the menu card, place cards and table decorations are all in off-white and are from the Happy Moments series. Here they are decorated with the bride and groom's fingerprints as red hearts using a stamp pad with red ink.

Inspiration: 14375

1

The groom and the bride both push their finger onto the stamp pad with red ink. They then put a fingerprint (one on top of the other at an angle to make a heart).
NB: It may take several attempts to get it right.

2

Scan the best print and complete it with your chosen text. Put a piece of off-white hammered effect paper in the printer and print out the desired quantity. Trim the prints and attach them to the invitation/menu card/place card using double-sided adhesive tape.

4

A TIP! You may add some sweets to the boxes, intended as table decorations at each place setting.

5

Attach the printed menu onto the inside of the printed greeting card.
