

## A Papier-Mâché Easter Bunny covered with Decoupage Paper

This papier-mâché bunny is primed with white craft paint and – when dry – it is covered with decoupage paper. Details are made with 3D Liners.

**Inspiration: 14380**

**1**

Prime the brown papier-mâché bunny with white Plus Color craft paint. This results in the slightly transparent decoupage paper appearing as clearly as possible. Leave to dry.

**2**

Tear or cut small pieces of decoupage paper. Use decoupage Allround Gloss lacquer for attaching the decoupage paper onto the bunny and apply a coat of the lacquer on top of the decoupage paper. This makes the transitions smooth. Leave to dry.

### 3

Draw details on the bunny according to your own imagination using 3D Liners.
