

A Storage Unit and a Box Set decorated in a Vintage Look

The storage unit and the boxes are painted with two (2) colours and decorated with a pattern in a third colour, using a template and Chalky Vintage Look paint. When dry, the wooden items are sanded with sand paper to achieve a worn and rustic look.

Inspiration: 14241

1.

Apply two (2) coats of Chalky Vintage Look paint in one (1) of three (3) colours to the wooden item. Leave to dry between each application. A TIP: remove hinges before painting for a nicer result.

2.

Apply another two (2) or three (3) coats of Chalky Vintage Look paint in the second of the three colours. Leave to dry between each application.

3.

Make the pattern: Attach the template onto the wooden item using masking tape.

4.

Apply Chalky Vintage Look paint with a paint roller in the third colour. Apply two (2) coats and leave to dry between each application. Remove the template. NB: Do not saturate the paint roller with too much paint as the paint might run underneath the template.

5.

Leave to dry and then sand the wooden item with sand paper.
