1

Print text on white textured paper for the front and the inside of the invitation. Trim according to your taste.

2

Attach the print and two small pieces of card (see the photo) using a glue stick. Also attach the silhouette sticker using the supplied foam pads. Decorate with individual self-adhesive rhinestones as well as the rhinestones cross.

3

Attach a cross onto the manilla tag. Attach a piece of natural hemp and tie it around the rolled up napkin. A TIP: May be used as a place card with a hand-written name on the front or the back.

4

A TIP: Large delicate tissue paper pom-poms look impressive on the table and are an excellent alternative to flowers. Easy to assemble following the instructions included in the pack.
