

A Polystyrene Cat covered with Papier-mâché Pulp

This cat is made from a polystyrene cone covered with papier-mâché pulp and assembled with a head modelled from papier-mâché pulp. The cat's basket is also made from papier-mâché pulp. When dry, everything is painted with A-Color acrylic paint.

Inspiration: 14569

1

Soak papier-mâché powder in water in the ratio: 3 parts powder to 1 part water.

2

Cover the cone with papier-mâché pulp and shape a ball from papier-mâché pulp. Assemble the parts by pushing a small piece of flower stick into the cone and then pushing the ball on top. Leave to dry.

3

Paint the cat with A-Color acrylic paint and leave to dry.

4

Make the cat's basket following the same procedure. Shape the soaked papier-mâché pulp in your hands, leave to dry and paint.
