

## Large Boxes covered with Decoupage Paper

These large papier-mâché boxes with lids are covered with Vivi Gade decoupage paper (the Skagen series).

Inspiration: 14449

**1**

Prime the box and the lid with white Plus Color craft paint. (This makes the colours and patterns of the decoupage paper appear the brightest). Leave to dry.

**2**

Attach decoupage paper using decoupage lacquer. Trim the decoupage paper at the joints (for example corners). When the item is completely covered, varnish it with decoupage lacquer. Leave to dry.

A TIP: For a very glossy surface, you may apply glossy Acrylic Lacquer all over.
