

Hanging Decorations from Hard Foil with Window Color

Hard foil designs decorated with Window Color copied from a design sheet placed underneath the transparent hard foil. The figures are cut out and a piece of elastic cord is attached for hanging when dry.

Inspiration: 14885

1

Copy the outline of the figure onto hard foil with a black contour Window Color, placing the design sheet underneath the hard foil. Leave the Window Color to dry before the next step.

2

Fill with Window Color and leave to dry completely.

3

Cut out the figure and make a hole for hanging with revolving hole punch pliers.

4

Thread a piece of coloured elastic cord or thread through the hole and decorate with a few beads. Tie a knot and hang.
