

Pom-pom Sheep

Make the sheep's body from pom-poms using a pom-pom tool and yarn. Add pipe cleaners for legs. The head is modelled from Silk Clay and glued on.

Inspiration: 14892

1

Start by winding yarn around the wide end of the pom-pom tool. The more you wind the denser the pom-pom. Tie a knot with a piece of yarn, tighten and cut open in the grooves along the sides.

2

Push two pipe cleaners inside the middle of the pom-pom and twist underneath the belly to make the sheep stable. Trim the legs.

3

Model a Silk Clay head and glue it on with a glue gun.
