

A Watercolour Picture painted with a Water Brush in a double-sided Frame

Watercolour paper decorated with writing and flowers using a water brush and liquid watercolour. The picture is inserted into a double-sided frame.

Inspiration: 14818

1

Fill the water brush with water. Pour the liquid watercolour into the palette using a pipette. You may dip the tip of the brush into both watercolours – one on each side (for writing with two colours). Now write your text.

2

Paint the roses in pink with water. Use green with a tiny bit of pink for the stems.

3

Paint the wooden frame with white Plus Color acrylic paint.

4

Place the watercolour painting between the two panes of glass and slide it into the frame via the groove at the top.
