

## A Christmas tree crocheted from cotton yarn and gold yarn

A classic Christmas crocheted from green and white cotton yarn with a Christmas star crocheted from gold yarn sewn onto the top of the tree. The Christmas tree is crocheted from four parts. The four parts and the Christmas star are assembled with sewing thread with a small gap between each layer, enabling each individual layer to rotate independently of each other. Alternatively, you may place the layers loosely on top of each other in case you do not want to hang the Christmas tree up.
