

Porcelain mugs decorated with flowers drawn with glass & porcelain markers

Decorate a personal porcelain mug with designs made with glass & porcelain markers. Leave the mugs to dry for 8 hours before fixing in the oven.

Inspiration: 15648

1

Wash the mug so that the surface is completely clean and grease free.

2

Draw your chosen design onto the mug using a glass & porcelain marker. Shake the marker well before use and pump out the ink.

3

Leave the decorated mug to dry for 8 hours and then place it in a cold household oven. Turn on the oven at 230°C. Turn off the oven after 40 minutes and leave the mug in the oven with the oven door closed to continue fixing in the oven until the oven is cold. The mugs are now dishwasher safe at a low temperature.
